Power sensitive equipment while on the road with our inverter generator.

The Cromtech Outback Inverter Generator 4.5kw is the perfect power source for your 'home away from home' while you are on the road camping, caravanning or in a motorhome. With its pure sine wave technology, you can safely and confidently power items such as laptops, mobile phones, televisions and most household appliances.

Also known as a leisure generator, an important feature of this product is a removable multi-function power pack that is used as the generators start up battery and can be easily detached for use independently as a power bank to charge phones, use as a torch or even jump start a small vehicle. Other accessories include an additional spark plug and a dust cover to keep
